

PILOT - STARRY NIGHT

SCENE 01

INT. PERCY'S OFFICE

The room looks like a 19th-century study: a massive mahogany desk, shelves full of leather-bound books, along with some illuminated props and figurines. An unlit fireplace. An anachronistic element is a robotic arm attached to the wall. PERCY sits in a chair mounted at its end. CHURRO and MUFFIN stand in front of the desk, looking at Percy.

CHURRO

Mamma mia...What is that smell?

The mechanical arm is welding last two wires on the empty painting.

PERCY

This my friends, is a smell of our victory!

*His voice is full of
enthusiasm*

MUFFIN

Hmm... Oups. Sorry I'm hungry

*He looks confused,
then hungry sounds
are coming from his
belly.*

PERCY

Haha, good timing! If the plan works, you'll have a lifetime supply of donuts.

MUFFIN

Ooooooh!

Dreamily.

INTERCUT

INT. A room full of donuts. Muffin sitting on the floor, gobbling down donuts.

CHURRO

Muffinnnn...

*Nudges Muffin with
his elbow*

PERCY

You'll see! We'll be making
headlines on all the top thief
sites. Who knows? We might even
snatch the Robberspierre Trophy!

Enthusiastically

INTERCUT

Quick cuts to internet portals, and a moment where
Percy, Muffin, and Churro are accepting an award.

CHURRO

Picobello! What are we planning
this time?

PERCY

Tomorrow night is the City Hall
gala. And the guest of honor? 'The
Starry Night'.

MUFFIN

So, the usual. In and out, we grab
the painting, and head back to
base...?"

PERCY

Glares sternly

Luckily I'm the brains of this
operation. This time, you're going
to swap the original painting for
this digital copy

*Points to an empty
canvas on an easel.*

MUFFIN

Eeee... Seems like it's not
finished boss.

PERCY

*With a smile, he
picks up a remote.*

One click, and we can make it look
like any picture... plus, I've got a

little surprise ready for the
Mayor when he unveils it.

*He presses the
remote. The canvas
flickers, and an
image appears.*

MUFFIN

Ooooooh!

*Surprise spreads
across his face.*

CHURRO

What do we do about the cameras?

Serious look

PERCY

*Turns to his
computer.*

Don't worry about it. I've looped
the feed. You have all the time
until morning. Now go.

SCENE 2: INT. CITY HALL - HALLWAY

The guard's cubicle, where the security guard sits.
It's partially glassed, and the corridor is visible.
The guard is asleep, and a balloon inflates from his
nose. Muffin and Churro sneak past behind his back,
but Muffin goes back for a donut. Churro prepares to
open the electric lock.

MUFFIN

and? can we go?

CHURRO

Si, sleeps like a piccolo bambino.

Muffin comes back for the donut.

CHURRO

Ughh, this gluttony of yours will
get us into troubles someday!

MUFFIN

Relax, one tiny little donut never
hurt anybody.

*Still stuffing his
face with the donut
and talks with a
full mouth.*

CHURRO

And voilà... our Starry Night!

*A proud look on his
face. BEEP sound as
the lock unlocks.*

INT. CITY HALL EXHIBITION HALL

A large, elongated exhibition hall, rather dark in atmosphere. Paintings hang on the walls. Muffin and Churro approach a painting hanging behind a glass display case. Muffin is still munching on his donut.

CHURRO

*Mmm...It's...so beautiful.
It's...the most amazing thing I've
ever seen. Simply...bellissimo.
True masterpiece!*

Amazed

MUFFIN

Still eating.

Ee? Churro...Are we looking at the same thing?

CHURRO

Eh, you wouldn't get it anyway.Let's get to work.

*Muffin tosses the
donut behind him.*

MUFFIN

Coming right up! Ough. It's pretty heavy

*Muffin opens the
display case and
takes down the
painting. Churro
installs the fake.
And takes the*

*original from
Muffin.*

CHURRO

Just be careful with that display case!

*Muffin is loosing
his balance while
holding large glass
and then slams the
display case back in
place but so hard it
cracks.*

ALARM V.O.

Second level of security activated.

CHURRO

Seems like a piccolo problemo.
Boss didn't mention any about extra lasers...

*Beams fly right in
front of their eyes.*

MUFFIN

Relax Churro...There's a switch at the end of the hall... I think I've got this.

CHURRO

Non possibile.

MUFFIN

*Raises both eyebrows
quickly. Wink wink.*

Just watch... Maestro! Music!

Muffin starts dancing ballet. At the very end, in slow motion, he steps on a donut, trips on it, and sets off the alarm.

CHURRO

Bellissimo!

MUFFIN

Oh crumbs...

*His eyes wide with
terror. He turns to
the side and sees a
donut.*

Oh, a donut...

Muffin grabs the donut, the action speeds up. Churro runs past Muffin.

CHURRO

I told you, your appetite would
cause some troubles...

INT. GUARD'S CUBICLE

A blinking diode indicates sensor activation. The guard looks at the camera feeds and sees nothing. Muffin and Churro run past behind his back holding the original painting

GUARD

Ugh, these blasted technologies,
everything's right where it should
be...

*He says with
disapproval. He
turns a button -
FALSE ALARM.*

EXT. CITY HALL

City Hall with wide stairs. Vertical banners announcing an upcoming exhibition are hung on the City Hall. Churro and Muffin run down the stairs.

CHURRO

Leave that donut alone already, it
almost got us caught!

MUFFIN

But I've still got two bites left!

CHURRO

Too bad...

Muffin tosses the donut out of the van near the curb. The van speeds off in a hurry.

INT. TANGO'S ROOM

A kid's room with detective movie posters. Tango sits at his desk, a police radio next to him.

RADIO V.O.

Control, this is Unit Seven. We have an alarm signal from City Hall. West wing.

Tango immediately straightens up. His boredom vanishes, replaced by intense focus. He listens intently.

RADIO V.O. 2

City Hall Security to Control. False alarm.

INTERCUT

INT. CITY HALL EXHIBIT HALL

Guard is standing next to the painting talking to his walkie-talkie.

GUARD

I checked everything myself, the painting is right where it should be. Probably one of the sensors acting up.

END INTERCUT

INT. TANGO'S ROOM

TANGO

Wait a second... things don't just 'happen' like that. Especially not the day before the Big Event!

*Tango raises his
hand and touches his
watch*

INT. BRAVO'S LAB

Tango's face appears on a large monitor. BRAVO (8 yrs old) pays him no mind. He's hunched over a complicated device with lots of lenses and sensors. Next to him hovers his drone, PIPI.

BRAVO

Impossible! Calibration
interference again...

TANGO (V.O)

Bravo! Do you copy?!

*Bravo sighs and
turns toward the
monitor where
Tango's face is
visible*

BRAVO

Patience, Tango! I'm working on
something cool - I'm just syncing
the new chemical analyze. Soon,
we'll be able to deconstruct a
potato chip crumb from five meters
away. It's gonna be epic!

TANGO

Bravo! There was an alarm at City
Hall near the "Starry Night." They
say it's a glitch, but my spidey-
senses are tingling. I don't buy
it.

*Bravo looks
skeptical, but sees
the determination on
his friend's face.*

BRAVO

Your intuition rarely lets us
down.

PIPI

We do not need to rely on
"tingling senses." I prefer cold,
hard facts. Hacking into the City
Hall monitoring system now...
Access Granted. Sending live feed
to your visors. Everything looks
normal.

*Animation on PiPi's
'face'. Accessing
ext. cameras. ->*

*access granted ->
sharing screen*

BRAVO

See? The painting is right there.
Looks like this time, Tango, you
missed the beat.

INTERCUT

INT. TANGO'S ROOM

TANGO

No, no. Something's fishy here.

*Tango stares
intently at the
screen. After a
moment, excitement
dawns on his face.*

There! The clock on the wall! Its
time is different from the digital
signature, and the hands aren't
moving!

INTERCUT END

INT. BRAVO'S LAB

BRAVO

*Uses a joystick to
zoom in on the
image. He smiles
with admiration*

Great catch, Tango! You sniffed it
out again. Someone looped the
footage!

TANGO

So what now?

BRAVO

Nothing for now. But we'll sneak
into the city hall before the
gala. We need to check the area
with our own eyes.

EXT. CITY HALL

Tango and Bravo walk up the stairs. Vertical banners inviting to the evening gala are visible, hanging.

INT. CITY HALL CORRIDOR

TANGO and BRAVO walk down a quiet, empty corridor. They walk hunched over so the security guard won't notice them. Next to them, at shoulder height, PIPi silently levitates. They approach the electric lock to the main hall. The security guard is watching a match.

TANGO

Locked up tight! Now what?

BRAVO

This is a job for a specialist.
PiPi! Time to shine!

PIPI flies up to the lock. A needle-thin cable extends from its casing and plugs into the panel's service port. The lock's interface appears on PIPi's screen: four empty fields [_ _ _ _]. Numbers start flying through the fields at dizzying speed. It looks like a slot machine counter. After a moment, one by one, they stop with a loud, satisfying CLICK: [2] ... [1] ... [3] ... [7] The lock panel turns GREEN. A quiet hiss is heard as the doors open. The boys and Pipi slip inside.

INT. CITY HALL - MAIN HALL

The hall is empty and prepared for the evening gala. The boys approach the painting "Alpine Daisy," while Pipi discreetly hovers behind them. Bravo adjusts his glasses, activating the scanner.

TANGO

See anything?

POV through the glasses shows the painting being analyzed. Bravo squints.

BRAVO

Wait... The surface scan is perfect. Pigment, age of the canvas... everything checks out. Looks like a dead end.

PIPI

Your toys are cute, but let me
scan it with professional sensors.
Anomaly detected.

Pipi laser-scans the painting.

PIPI

Piii Piii! Structural anomaly.
Digital polymer grid.

BRAVO

This isn't an ordinary canvas,
it's an advanced marvel of
technology! PiPi, record all the
data, we'll analyze it in the lab.

They retreat through the doors, which close behind
them.

INT. BRAVO'S LAB

BRAVO, TANGO, and PIPI, flying next to them, are
gathered around the main holographic monitor. It
displays a complex, three-dimensional model of the
painting's pulsing grid. Behind them, a transmission
from the city hall gala is visible.

BRAVO

This is incredible! PiPi, zoom in
on the image to a microscopic
level.

PIPI

Just as I calculated. Every
particle is a programmable micro-
crystal. It's not a fake... it's a
high-tech digital screen! You can
control it remotely and change the
image to whatever you want in a
snap.

TANGO

But why? Why would a thief leave
something so advanced in the
museum?

The boys thoughtfully turn their attention to the TV
screen.

MAYOR V.O

This is the moment we've all been waiting for!

INTERCUT

INT. PERCY'S OFFICE

Percy sits in his armchair. He watches the gala on TV, holding a futuristic-looking remote control in his hand.

PERCY

Well, I don't know if **you** were waiting for **THIS MOMENT**.

Sinisterly

On TV, the Mayor is seen unveiling the painting. Percy presses a button on his remote. The painting starts to flicker and displays the Mayor's figure in an embarrassing pose.

PERCY

Hahahahaha! No one saw that coming!

INTERCUT 2

INT. CITY HALL MAIN CHAMBER

The MAYOR is terrified, awkwardly trying to cover the painting with his hands. A surprised murmur rises from the crowd. Lots of flashing cameras!

MAYOR

This can't be happening! What is this sorcery..The painting's been stolen! What a disgrace...

*Disappointment clear
on the Mayor's face*

INTERCUTS END

INT. BRAVO'S LAB

BRAVO

Aha! So **that's** what this whole show was about!

PIPI

If I may suggest something. On our way to City Hall, I saw city cameras that might have caught something. I'll connect to the city system and check if anything happened outside during the theft!

A connection schematic lights up on PiPi's 'face' again (just like when connecting to City Hall).

PIPI

Got it! The image is blurry, but 2 minutes after the alarm, a black VAN sped away from City Hall! Displaying the image on the screen!

On the monitor screen, a still frame appears, showing a truck with a company name and license plates.

BRAVO

Let's check that company's address.

Bravo types the company details into the computer. 'SEARCHING...' appears, then immediately, a big 'ZERO INFORMATION'!

TANGO

Try the license plates!

Bravo inputs the information again. 'SEARCHING...' appears on the screen, then immediately, 'STOLEN'!

PIPI

Stolen

BRAVO

It's no use. We need to go to the crime scene and thoroughly check the area. It's time for the Widgeteers!

Bravo points on two tubes with their superhero costumes! Quick shots: They put on gloves, boots, helmets. The Widgeteers' logo flashes brightly on their chests!

INTERCUT

EXT. BRAVO'S HOUSE

With a squeal of tires, they burst out of a secret exit on their futuristic scooters and speed off into the distance! PiPi flies behind them!

EXT. STREET IN FRONT OF CITY HALL

Tango and Bravo screech to a halt in front of City Hall and leap off their scooters.

TANGO

Let's start where the VAN was parked. Maybe they left some clues!

BRAVO

Well, definitely they left tire tracks... It's time to test my analyser Maybe it'll give us a lead!

*He examines the
tracks and activates
a scanner on his
forearm.*

SENSOR V.O.

SAMPLE ANALYSIS. SAMPLE ANALYSIS.
HIGH CONCENTRATION OF MARINE ALGAE
from the Water-Wiggle-Weed
species.

BRAVO

That's unusual... PiPi, where can we find these algae?

PIPI

My data indicates they're only found in the city port docks.

TANGO

That must be their hideout! Let's get going, the Mayor needs our help!

Behind them, the Mayor is seen in the background giving an interview.

News camera shot.

MAYOR

What an embarrassment!

*covers his face as
if crying*

BRAVO

Let's roll!

TANGO AND BRAVO speed off with a squeal!

EXT PORT

TANGO AND BRAVO slowly approach the docks.

TANGO

This port is enormous! We need to
narrow down our search area!

PIPI

I'll check the list of unused
hangars. Only one match -
warehouse number 13!

BRAVO

Okay, got it on the map! Follow
me!

INT. WAREHOUSE 13

Inside, at a makeshift table, sit CHURRO and MUFFIN.
The genuine Starry Night painting leans against the
wall. Muffin happily devours an enormous donut. On the
laptop in front of them, a shadowy figure is visible.

PERCY V.O

Oh, I love the smell of chaos in
the morning! The Mayor is crying,
the citizens are running in
circles—it's a massive success!
Keep your eyes on the skies, team;
our getaway drone drops by in
twenty minutes for the 'Grand
Prize.' Try not to drop it!"

MUFFIN

Did you hear the Big Boss?
"Massive success!" We're getting a
bonus! And more donuts!

CHURRO

Yeeaahh... and imagine the headlines! "Untouchable!" "Best Villains Ever!" Mia mamma is gonna be so proud her Churro bambino is making a career like grandpa Luigi...

dreamily

EXT. WAREHOUSE 13

Tango and Bravo stand by the window. PiPi levitates beside them.

TANGO

We don't have much time...

BRAVO

I propose we use the Electro-Magnetic Discs. Best way to neutralize them. We stick them to the thieves' backs, but the stun feature only works if they are at least 25 meters apart. Then...
ZAP!

*shows round
futuristic discs*

PIPI

Hmm, I can handle that. You two split up to the far corners and set the trap. Leave the first part to me.

BRAVO

What's the signal to attack?

PIPI

You'll figure it out - hehe!

Bravo and Tango move away in opposite directions while PiPi flies over to the power distribution box. She plugs in and deactivates the lights.

INT. WAREHOUSE

The lights go out. Churro and Muffin's faces are visible. Muffin looks a little terrified.

MUFFIN

I don't like the dark...

terrified

CHURRO

Relax, nobody else is here but us!

Pipi flies silently with a dimmed screen. When she's close to the crooks, she shouts "BOO!" and her red eyes light up!

PIPI

BOO!

Muffin and Churro, terrified, start running in opposite directions. Tango and Bravo are catching them.

Tango and Bravo attach the electromagnets to their backs.

BRAVO

Magnet in place!

TANGO

Mine too. Activating.

Bravo and Tango press something on their watches. The electromagnets activate. Terror is visible in Muffin and Churro's eyes. The electromagnets pull them together in the air with great force. After colliding, they land stunned on the ground. Bravo and Tango high-five each other.

PIPI

Neutralisation complete.

BRAVO

Tango, let the mayor know that the Widgeeteers have recovered the stolen artwork. Meanwhile, I'm going to unleash my artistic soul!

Bravo paints on a canvas, Tango returns from the corner of the warehouse.

TANGO

The police will be here any minute! What do we do with this drone that's supposed to pick up the original painting?

A large drone with a suspended basket for the painting flies in through the broken hangar window.

BRAVO

Well, it can't fly back empty-handed, can it?

*(Winks and places
the canvas into the
basket.)*

EXT. WAREHOUSE

On one side, the approaching police are visible, on the other, Tango and Bravo driving away.

INT. PERCY'S OFFICE

Percy stands by a huge open window (or on a large balcony/terrace), smiling as he looks out into space. In the distance, an approaching drone is visible. It gently lowers the basket in front of Percy - with its back to him.

PERCY

Oh yes...According to plan!
Perfect! I am a genius of perfect
crime!

He picks up the painting and turns it around. Instead of the priceless masterpiece, the package contains a clumsy, childlike scribble depicting the Gadgeteers somewhat in the style of Starry Night. He lifts the picture, looking at it with pure hatred.

PERCY

Wait... What is this?! Those
cursed Gadgeteers have foiled my
plans again!

Percy hurls the painting at the wall. It lands facing the camera, and only then do the scribbles become visible.
